

IsoTech Ink: Executive Security Awareness Summary

Prepared for Senior Leadership

Key organizational risks currently include:

- Phishing attacks
- Weak remote work security
- Credential theft
- Inconsistent employee awareness

The proposed Security Awareness Program aims to:

- Improve employee reporting behavior
- Reduce phishing success rates
- Strengthen organizational security culture

Recommended executive priorities:

1. Support mandatory awareness training
2. Enforce MFA adoption
3. Promote leadership participation
4. Conduct quarterly awareness reviews
