

IsoTech Ink: Executive Status Report

Executive Cybersecurity Status Report

Prepared By:

Sebastion Mauldin
Cybersecurity Risk & Operations Coordinator

Reporting Period: Q2 2026

Overall Program Status

The Enterprise Cybersecurity Governance & Risk Transformation Initiative continues progressing according to planned implementation timelines.

Current initiatives remain focused on:

- Access control enhancements
- Employee awareness training
- Governance improvements
- Vendor security oversight
- Monitoring visibility expansion

Several initiatives have successfully entered operational implementation phases, while additional governance improvements remain in progress.

Key Accomplishments

Current initiatives during the reporting period include:

- Rollout of employee awareness training
- Implementation of governance reporting procedures
- Development of incident escalation workflows
- Completion of initial vendor risk classification
- Implementation of MFA governance standards

Current Risks & Challenges

The following challenges continue requiring organizational attention:

- Incomplete vendor security documentation
- Inconsistent remote access compliance
- Monitoring visibility gaps across select systems
- Inconsistent employee phishing reporting behavior

Additional coordination between HR, IT, and departmental leadership is recommended to improve governance consistency.

KPI Highlights

KPI	Current Status
MFA Adoption	82%
Security Training Completion	91%
Vendor Reviews Completed	75%
Incident Escalation SLA	2.5 Hours

Upcoming Priorities

The following initiatives are scheduled for the next implementation phase:

- Dashboard reporting enhancements
- SIEM monitoring expansion
- Incident response tabletop exercises
- Vendor remediation reviews
- Governance maturity reassessment

Conclusion

The cybersecurity governance initiative continues improving organizational security maturity, governance coordination across the enterprise, and operational visibility.

Continued leadership support and cross-functional participation remain essential to long-term success.
