

IsoTech Ink: Security Awareness & Training Program

Human Risk Reduction Initiative

Prepared By:

Sebastion Mauldin
Cybersecurity Risk & Operations Coordinator

1. Purpose:

The purpose of this program is to improve employee cybersecurity awareness, strengthen the organization's overall security posture, and reduce human-related security risks.

This initiative focuses on:

- Phishing awareness
- Remote work security
- Password security
- Acceptable use
- Incident reporting
- Social engineering prevention

2. Program Goals:

The goals of this program are to:

- Improve employee reporting behavior
- Reduce successful phishing attacks
- Strengthen password security practices
- Promote security-first culture across all departments
- Improve remote work security awareness

3. Scope:

This program applies to:

- Contractors
- All employees
- Hybrid employees

- Remote workers
- Executives

4. Training Topics:

Employees will receive training on:

Security Fundamentals

- MFA usage
- Password hygiene
- Device Security

Social Engineering

- Vishing
- Phishing
- Smishing
- Impersonation attacks

Remote Work Security

- VPN usage
- Approved device usage
- Secure Wi-Fi practices

Incident Reporting

- Lost device reporting
- Suspicious email reporting
- Escalation procedures

5. Training Frequency:

<u>Training Type</u>	<u>Frequency</u>
New Hire Training	Upon Hire
Company-Wide Awareness Training	Quarterly
Phishing Simulations	Quarterly
Policy Reviews	Annually

6. Security Awareness Metrics:

The following metrics will be tracked:

- Incident reporting rates
- Phishing click rates
- Training completion rates
- Policy acknowledgment completion

7. Employee Responsibilities:

Employees are expected to:

- Follow company security policies
- Complete assigned training
- Report suspicious activity immediately
- Protect company credentials and devices

8. Program Review:

The program will be reviewed annually to ensure continued effectiveness and alignment with organizational risk priorities.
